

Secure Your Business like You Secure Your Home

By thinking of cybersecurity like home security, it's easier to understand the measures needed to keep your company safe. The Security BlanketSM, a cybersecurity solution offered by Acrisure Cyber Services, LLC, can help you secure your business, just like you secure your secure home.

Security Blanket SolutionSM

A Secure Home

Multi-Factor Authentication (MFA)

Requires multiple credentials (e.g. text code) to verify it's really you.

Door with multiple locks

requiring both a key and a unique entry code.

Endpoint Detection & Response (EDR)

Constantly monitors devices and automatically reacts to potential threats.

Smart security cameras

that record intruders, alert you, and locks down the area.

Email Security

Uses AI to spot malicious emails and suspicious behavior patterns.

Checking incoming mail

for suspicious items before they enter your home.

Vulnerability Management

Regularly scans and patches weaknesses before attackers can exploit them.

Home security inspections

to identify security weak points and blind spots.

Security Information & Event Management (SIEM)

Centralizes and analyzes all security logs in real-time to help detect threats.

Central Command Center

reviewing camera feeds for anything unusual.

Data Backup & Disaster Recovery

Creates secure copies of your essential data to help you recover more quickly from a breach or disaster.

Fireproof Safe

storing duplicates of your most important documents.

Security Awareness Training

Trains your team to recognize phishing scams, suspicious links, and other common cyber threats.

Teaching family members

basic safety habits to avoid unsafe situations.

24/7 Monitoring & Support

350+ IT and cybersecurity professionals proactively hunt and respond immediately to threats around the clock.

Professional security guards

who never sleep or take weekends off, so you can rest easy with peace of mind.
